MONTH REVEALS INCREASE IN MINE EMPLOYMENT

Rapid Progress On New Business Blocks, Houses

The two large business buildings in Nevada City's business district are rapidly taking form and it won't be long until they are finished. There have been many new homes built in and around the city and several business houses have been remodeled until the city has taken on new life and zest with the addition of the new business houses in the heart of the city.

Cement for the new Bank of America building at the corner of Pine and Broad streets is practically poured. The present general contractors limit is November 20 and he expects to finish his work on or before that time. After that will come the installation of fixtures and interior decorations. It is expected the local branch of the Bank of America will be moved into their new quarters in from two to four weeks after completion of the work by the general contractor.

Mr. and Mrs. Forrest Risley purchased a lot from Tony Rore on Nile street recently and now have a neat little home over half built. Mr. Risley has a cleaning and tailoring establishment on lower Broad street in this city.

The new three room home of Mr. and Mrs. Lorin Williams is about two thirds complete. They purchased land from Theodore Nelson, north of Nevada City and will have an attractive place when their plans have been consummated.

The brick front to the John Tognarelli business building on lower Broad street is completed. The front entrance to the two stores are set in with a balcony above for the two apartments above. Plumbing and interior work is being rushed and it should not be many days before the work is done.

Within the next few days the bath house at Nevada City's municipal swimming pool are to receive a coat of paint. They will soon be ready for use.

Mr. and Mrs. Oluf Knudsen, who reside on Coyote street in Nevada City, are preparing to erect several cottages on their property in the near future. They have purchased the three old houses of the late Mr. and Mrs. Simmons on west Spring street and are to tear them down and build new cottages in their place to rent.

ELKS' CHARITY PARTY TODAY

What promises to be one of the most pleasant social events of the season is scheduled for this afternoon at 2:00 o'clock on the big lawn of the O'Neill residence at the corner of East Broad and Main streets. It is an outdoor card party, the proceeds of which are to be used for the Christmas Charity Fund of the Nevada City Lodge of Elks.

Every Christmas the Elks see that Christmass cheer is not lacking in the homes of worthy persons in Nevada City. For many years the Elks provided this from their own treasury ,but the burden became too great for them to bear alone and they are calling for the help of the generous people of Nevada City.

That their confidence in this generosity is not misplaced is evidence by the fact that committee from the lodge selling tickets in the business section yesterday afternoon received a hearty response and they sold nearly $50 worth of tickets.

Card playing will commence at 2:00 o'clock sharp so that the games of whist, contract and auction bridge and mah jongg may be completed in time for the games to be ended early. There is a gate prize of a side of bacon from the Keystone Market and 3 dozen eggs from an Elk who withholds his name. In addition there are prizes for those who make the best scores.

With such a worthy cause there should be a large attendance.

The first monthly dinner of the season was served last evening at the Elk's club with all the club officers in the role of mein hosts and Exalted Ruler W. E. Wright officiating as chief-at-large. The piece de resistance was roast beef done in the bully British style calling forth the commendation of the large company of epicures who sat down to the board.

COUNTY ROADS PLANS BEFORE STATE CHAMBER

A delegation of Nevada county men will attend the meeting of regional State Chamber of Commerce tomorrow at Sacramento. Among them will be members of the Board of Supervisors and representatives of the Nevada City and Grass Valley Chambers of Commerce.

A rift between the lute has developed over the position this county should take with regard to the Downieville highway. A sentiment has developed in some portions of the county that first application of state highway funds should be devoted to improvement of the Auburn-Grass Valley highway rather than the Grass Valley-Downieville road.

It is regarded as important that Nevada county representatives agree upon a program that will most benefit this county. For many years Downieville and people along the "road of a thousand curves" have sought the assistance of Nevada county people in supporting their plea taking some of the kinks out of that winding and dangerous highway. To desert them now for any other plan, would probably lead to an impasse within the county itself which might easily defeat both improvements, since, as is well known, the State Highway Commission hesitates to act in cases in which county representatives are at loggerheads.

It has been suggested that a unified plan, embracing both portions of the highway, under the head of the Auburn-Downieville road, might be submitted which would avoid a clash and perhaps give a wider latitude to the Highway Commission in making its decisions.

OLD RESIDENT SERIOUSLY ILL

Mrs. Florence Evans is seriously ill at her home on Boulder street. A trained nurse under Dr. Reed's direction is in constant attendance. Her many friends wish her a speedy recovery.

Parking Signs in Business District

Bright yellow one hour parking signs now decorate the business section of our streets giving Nevada City quite a metropolitan air. These are up by order of the police department and for the benefit of shoppers and business people.

SIERRA COUNTY MINES

PLUMBAGO-EL DORADO GOLD MINING CO.

Ten stamps of the 20 stamp mill at the Plumbago mine, near Alleghany are being operated and the shaft at the mine is being unwatered.

A 500 foot raise to the surface is being run from the operating tunnel at the El Dorado mine which is being worked in conjunction with the Plumbago-El Dorado Gold Mining Company.

This is a correction of an erroneous report that appeared in the Nugget of September 14.

Little Eugene Hatch received a badly sprained wrist while at play at the Gold Flat school this week. X-rays showed no broken bones.

JUDGE NEVILLE OF SIERRA CO. PASSES AWAY

Judge Henry B. Neville, of Sierra county, passed away at his home in Downieville yesterday morning. Judge Neville was 69 years of age. He had occupied the bench in Sierra county since 1930 and was greatly respected and loved.

Death followed a severe attack of paralysis. No immediate relatives were present at his death. Mrs. Neville passed away several years ago. It is believed that the late judge has a nephew and niece living in New York.

Funeral services will be held at 2 o'clock Saturday afternoon in the court house in Downieville. The rites will be conducted by the Nevada City Lodge of Elks with the services in charge of the Holmes Funeral Home. Interment will be in the Odd Fellows Cemetery.

WEST MINES CO. IS REORGANIZED

California-Sierra Gold Mines, Inc., a California corporation, has been organized to take over the assets and liabilities of West Mines Corporation, operating in the Nevada City district. West Mines Corporation, of which Mr. Orlando McCraney of Nevada City is the president and manager, has been operating the Hussey, Canada Hill, and Ragon Mines and the Queen Lil Mill, all near Nevada City. The management of these properties under the new company will be identical with that in the past. Mr. McCraney being the president of the new company and remaining as manager of the properties. Gordon Bettles of Nevada City is vice-president, Mr. H. J. Richardson, prominent electrical engineer of Oakland, is secretary-treasurer, and Messrs C. P. Goemmer and J. A. Steele of Oakland are additional directors of the new company.

The Nevada City office of West Mines Corporation is in receipt of information from Mr. Bettles that a permit for the sale of stock in the new company has been granted by the Commissioner of Corporations. Proceeds from such sales will be used for the additional development of the above mentioned properties.

The company plans on pushing through its development program in Nevada County with all dispatch and hopes within a few weeks to have at least two of its properties under active development. Meantime the Hussey Mine is being successfully operated and awaits only additional development at greater depth to permit of an increased rate of production. The company's mill is handling a considerable amount of custom ore in addition to its regular tonnage from the Hussey Mine.

Word from Mr. Bettles, who has been spending the past month in Oakland and San Francisco, is that interest in mining is on the increase, and that sound development propositions are coming to be more and more in demand. This attitude applies particularly to the Nevada County area, where an increasing amount of activity should soon be in progress.

MRS. ROBERT NYE HOSTESS TO CIVIC GARDEN SECTION

Mrs. Robert Nye was hostess to the garden section of the Woman's Civic Club on Wednesday afternoon at her home on Broad Street. There were twenty-two present. After a most interesting discussion of fall planting the hostess served tea, after which the ladies visited gardens in the neighborhood.

Those visited were the Schrieber, Ivy, Bennetts gardens. Preliminary plans were discussed for the spring flower show.

JUDGE TUTTLE UPHOLDS DEBTOR RELIEF LAW

In an interesting decision rendered yesterday, Judge Raglan Tuttle, upholds the law passed by the last regular session of the legislature, which provides that a mortgage holder may not take a deficiency judgment against a debtor in excess of the difference between the price which the property realized under foreclosure sale and the fair market value of the property, determined by appraisal, at the time of the sale.

The decision is made in the case of E. B. Campbell versus L. P. and J. L. McKelvey and others, in which a foreclosure of certain property was made resulting in balance still due of $7,784, for which a deficiency judgment was asked.

After quoting the law and citing a recent decision of the United States Supreme Court, in which a Minnesota law, also passed as an emergency measure, was validated despite the contention that the Minnesota law violated the constitutional "contracts clause," Judge Tuttle says:

It is common knowledge that creditors frequently have bid in the property under a sale had under a trust deed, at an almost nominal value, with the result that the debtor lost his property while still remaining liable for a large proportin of the original debt. This evil is aggravated in the case of purchase money transactions, where the debtor often lost the property he attempted to buy and, in addition was held liable for most of the purchase price. Because of the number of people affected by trust deed sales and deficiency judgments, there is a grave possibility of added burdens being thrust upon public aid facilities, if the debtor class is not helped through the present crisis. It would follow that the welfare of the state in the present economic depression requires that debtors be given some relief. That the legislature had the foregoing facts in mind when this legislation was enacted, there can be little doubt.

Summing up the principle shown by the development of the law un-

(Continued on Page Five)

HI SCHOOL P. T. A. IS ORGANIZED

A Parent Teacher organization was formed at the Nevada City high school September 17, by the representatives of the Third District and Council departments of the State Parent Teacher organization. Officers elected: Mrs. Anna Godfrey, president; Mrs. Robert F. Grant, vice president; Miss Baker, a teacher, secretary, Mrs. White, treasurer. The goal is that every home having children in the high school will be represented in the Nevada City high school Parent Teacher Association. October 1, will be the first meeting, at which time the charter will be closed and it is hoped to have 100 per cent representation on the charter. If you would like to have your name entered on the list and pay your money at next meeting, please call 392 after 12 o'clock, otherwise someone will be calling upon each home.

E. C. UREN CALLED TO SAN FRANCISCO

Edward C. Uren, mining engineer of Nevada City, was called to San Francisco Thursday in regard to map work on the River Mines gravel property north of Nevada City.

Representatives from New York were in Nevada City a few days ago and went over the property. This large property holds good promise and it is expected that work of development will get under way before many months.

Development Notable in Mining in County

For notable developments in the county mining industry have occured in the last thirty days, since the last review was published in the Nevada City Nugget.

First has been the extraordinary revelation of gold and silver values in the Central Mine of the Lava Cap company, which, first discovered on the 1,000 foot level, were found to continue in levels above and below. These values running as high as $500 per ton, were extraordinary in the fact that in some spots the ore runs as much as 60 ounces of silver to five of gold. With silver now selling at the new price recently fixed by the United States Treasurer, the significance of this development to this district can hardly be overestimated. The Lava Cap now employs 128 men and in the near future plans a tunnel project along the present vein, from which ore is being extracted, from the Central to the Banner shaft. Otto E. Schiffner is the superintendent.

Second in importance is the reorganization of the West Mines company, which hereafter will be known as the California-Sierra Mining Company, and attendant arrangements for refinancing. Orlando McCraney will continue as president and Gordon Bettles as vice president.

The third feature of the month's activities is the completion by the River Placers Mining Company of the tunel through a ridge extending into the Middle Yuba, through wh the river has been diverted, exposing a big bend and making possible the sluicing of virgin gravel in the river bed, some of which is reported to be 60 feet in depth. A dragline is now being used to empty the river bed of its treasure.

The fourth development of general mining interest is the completion of test drills in the debris dam sites in the Yuba, South Yuba, American and Bear Rivers by William Maguire Jr., engineer in charge for the California Debris Commission. These tests have been made for the United States Board of Army Engineers, as a preliminary to making estimates of costs of these structures, which have been recommended by the board in the interest of placer mining.

The monthly report given below reveals a slight increase in Nevada county mining employment, reflected of course in payrolls, and a considerable increase in the number of mines in operation.

MATTIE GOLD MINE

The Mattie Gold mine, below Grass Valley, is contemplating the sinking of a shaft to the 1,000 foot level. They have 25 men employed in mining and development work.

REMINGTON HILL

It is understood Frank Crampton, in charge of the Remington Hill placers, has a small crew getting the property in shape for the first fall rains when hydraulic operations will start.

GOLDEN CENTER MINE

Drifting and stoping operations continue at the Golden Center mine in Grass Valley where 75 men are now employed. L. S. Wincapaw is superintendent.

ZEIBRIGHT MINE

The first truck load of machinery for a new flotation unit at the Zeibright mine in Bear Valley, east of

Stand Fast—America!

By Den Waiters

AMERICANS—courageous Americans—settled the West.

By wagon-trains they braved unknown perils of plains and mountains to establish new homes along the shores of the Pacific. They relied upon the guarantees of liberty assured them in the Constitution of the United States of America.

It was the same brand of American grit that inspired the American Colonists to establish a new country. It was the same type of American courage which united the nation during the stormy days of the Civil War.

Communism was unheard of—then.

No one dreamed that an organized effort would be made, in later years, to "regiment" all men and women into a common pattern by which the abilities and the energies of most of us would be "throttled down" to the standards of a few of us.

No one dreamed then—in the days of those early pioneers—that the right of men to work, to own property, to worship as they please would be attacked.

It was unthought of—the suggestion that newspapers should be muzzled and permitted to print only those items of news and expressions of opinion as might be permitted by a politically-controlled governmental bureau which dared not face a public correctly informed by a free and untrammeled press.

And yet—all these things, and more, confront America today!

Strikes are being fomented, disturbances are created, unrest is being fostered among those who are employed—by those whose openly avowed purpose is to overthrow the government of the United States. Fear is being instilled in the hearts of those who have their savings of a life-time invested in a home or small shares in business enterprises. Employers of labor are being intimidated. Business is being crushed. Our official servants are being led away from the American fundamentals of government by the mouthings of visionaries, or the half-veiled threats of radical organizers.

In God's name, America—Stand Fast.

It is our Constitutional privilege to vote for whom we please. If we do not express our preference—if we do not exercise our right to vote—we are certain to be faced with an overthrow of most of those things which Americans for generations have cherished. Such organized minorities have established dictatorships in Europe. Is it your wish that visionaries or radicals should take over the governmental control of America?

STAND FAST, AMERICA, AND CAST YOUR BALLOTS.

(NOTE: This is one of a series of eight editorials sponsored by STEADFAST CALIFORNIANS, ASSOCIATED.)

They Have To Be

"Are politicians always good?"
Asked little Jackie Corey;
"They have to be," quoth grandpah John
And waxed explanatory;
"If you will listen closely dear,
Granpah will make the reason clear."

"Now when a modest man steps forth
To labor for the state,
His past becomes publicity—
The scribes elucidate;
And if his record bears a stain,
They play it up with might and main.

He may seem meek and guileless too,
As any wooly sheep,
But if he's harmed a brother man
Or failed a pledge to keep,
There's not the shadow of a doubt
But that his sins will find him out.

The meddling voters will not let
His past rest as it should;
They'll magnify the evils done
And overlook the good;
And that's the reason, Jackie lad,
Men can't campaign if they've been bad."

—A. Merriam Conner.

raised the loudest against any suggestion of curtailing subsidies or further Federal aid, are those whose interests are threatened.

Those whose interests are most directly jeopardized are; of course, the shipping companies, the ship builders, and the steel, oil and coal producers.

Propaganda for the purpose of forming public opinion will be employed; the most insidious of which, is the necessity of a large Merchant Marine as an auxiliary to our Navy, in the event of War.

The policy of the present Administration seems to lead toward a self contained Nationalism; and America sufficient unto itself. It would be paradoxical to prosecute such a policy on the one hand, and on the other to appropriate huge sums of Federal money for the purpose of building up a Merchant Marine; whose principal objective would be to further embroil America in the universal competetive struggle for world trade, with its attendant entanglements and dangers.

The whole question is of deepest importance. Both sides are championed by capable men, who honestly believe in their principals and opinions.

If momentous issues such as this could be stripped of superfluous verbosity, usually put forth by conflicting interests whose motives are purely selfish; and the underlying issue itself made clear for the consideration of the people; expensive mistakes might be prevented.

SILVER CERTIFICATES

Contrary to the theory, advanced by opponents to Silver Legislation, that the new silver certificates, now being put into circulation, under the recently enacted Silver Act; would result in the retirement of an equal amount in Federal Reserve notes, thus nullifying its purpose, which is to increase currency in circulation; reports prove that such is not the case.

Figures show that during the first full week of operation under its new silver policy, the treasury has put into circulation nearly eleven and a half million dollars of the new silver certificates. During the same period—the Federal Reserve System reported a net increase of more than seven million, seven hundred thousand dollars in their outstanding currency. This is fairly convencing proof that the country can and will absorbe more of the circulating medium of exchange.

BETWEEN THE LINES

By Alexander McNulty

WHITHER THE DRIFT?

In the reluctance of the President to order Federal troops into Rhode Island to quell rioting mobs occasioned by the far spread textile workers strike, is to be discerned a deep motive.

The use of Federal troops to crush such uprisings or rebellions is, as we know, nothing new. New however, is the trend of public thought, attitude, and convictions.

Passing without comment for the moment, the various circumstances that have brought on this sad state of affairs—disregarding even the question of humanity involved and the matter of the Federal Government showing anything but neutrality in a fight between Labor and Capitol; basic principles of government may well be involved.

More and more, expressed and unexpressed, the thought that democratic form of government has failed, is current throughout the nation.

Fascism and Communism are of course the most vocal and the most convincing in this contention. General discontent, has long been expressed in scathing criticism of representatives in Congress and Senate, and the increasing general willingness to centralize power in the hands of executives, cannot be ignored.

History teaches that any form of government, not democratic, must rely on the use of armed force to uphold itself. If the Administration had any desire to change the fundamental principles of democracy, as charged by many opponents; this crisis that has now arisen could very easily be the opening wedge.

There is no doubt that fundamental changes must occur. A complete swing toward Fascism or National Socialism is hardly to be expected although the possibility is not to be completely ignored.

The present trend is toward something between democracy and National Socialism. Unconsciously perhaps, a great amount of public opinion leans toward some form of Fascism. With conditions as they are and public thought as it is; irreconcible differences between employees and employers that would be still farther aggravated by government intervention, would mean the nationalization of industry. Further, it would have established the precedent of using armed force in such nationalization.

Representative form of government is in no danger of falling until troops entirely under the command of one man or faction are available for use against the populace.

President Roosevelt's action in the matter, even under pressure of hysterical demands, is to be commended and it is to be hoped that he will not take irrevocable action.

NATIONALISM OR INTERNATIONALISM?

The controversy between Secretary of Agriculture Wallace and some of the leading Democratic members of the House and Senate, arising out of Secretary Wallace's opposition to Federal subsidies for the purpose of further expanding our Merchant Marine, may be of far reaching importance. In its broadest sense, the issues involved is; shall our policies trend toward an agressive Internationalism or shall we adjust ourselves to a self contained Nationalism.

Obviously, those whose voices are

S. F. COMMERCE CHAMBER SLAPS STATE FARMERS

BY RALPH H. TAYLOR

California, perhaps more than any other state in the nation, is dependent on tariff protection for a successful agriculture, due to the fact that its crop come into direct competition with similar crops from foreign countries with much lower living standards and a "cheap labor" supply.

Regardless of all the nicely-phrased arguments of economists and free trade theorists, California faces the inescapable fact that if tariff barriers are removed, California farmers and California labor will both suffer. Lower income and living conditions, far below American standards, will be the inevitable result.

And yet, in face of these facts, the San Francisco Chamber of Commerce, representing a great metropolitan area which has come to greatness largely as a result of its back-country, has placed itself in the unfortunate and illogical position of supporting the present movement to destroy—or at least greatly reduce—the present tariff protection for California crops.

Most serious is the fact that the tariff question, under present conditions, can be decided without Congressional approval, and without a proper hearing being accorded the farming industry. Final authority in the tariff issue rests, today, with the President and the Tariff Commission—a dangerous situation at best, and one made doubly dangerous when organizations like the San Francisco Chamber of Commerce come out in espousal of what amounts to free trade.

FARMERS PROTEST

The Agricultural Council of California, representing the state's major farm co-operatives and farm commodity organizations, has made vigorous protest to the San Francisco Chamber against its unsound and inconsistent position in opposing present tariff restrictions and, at the same time, favoring a subsidy for American ships to increase the trade passing through its port.

In its formal protest, the Agricultural Council, embracing in its membership more than 50 per cent of all California farmers, says:

"Attention has been directed to the great inconsistency of your organization in supporting what amounts to foreign free trade in agricultural products and yet, at the same time, with equal vigor, supporting a subsidy for American ships.

"Do you not see the gross unfairness of such a position to agriculture, one of the main supports in making San Francisco the great city she is?

CITY DEPENDS ON FARMS

"A tremendous share of the business done in your city is due to the agricultural production of your back-country which is handled by your merchants, processed by your factories, and shipped from your shores, and also to the wealth brought into the state from eastern shipments and which is spent many times over in San Francisco.

"Why should you desire to stifle the very industry which puts business in the hands of your people?

"Consistency at least should put you on the same side of both issues. We do not object to your position with reference to ship subsidy, but we do think you should reverse the paradoxical position you now hold and join California farmers in support of tariff, which will keep at least a reasonable share of the American market for domestic producers.

"May we not hear soon of a change in your position with reference to foreign trade duties?"

It is to be hoped that the San Francisco Chamber of Commerce, on more mature consideration, will heed the appeal of the back-country which has created San Francisco and made it strong.

It is hoped that American standards of living may be maintained; that California wage scales shall be maintained, and that California's great farming industry—the mainstay of both rural and urban life—shall be granted the support to which it is rightfully entitled.

Ben Bowmen, A. Netz and sons formed a party that left Wednesday for the Alleghany district for a deer hunt. As Mr. Bowman advertised for a deer last year and failed to get one, he is taking no chances this year and taking Mr. Netz and sons along to assist in getting the prize buck of the season.

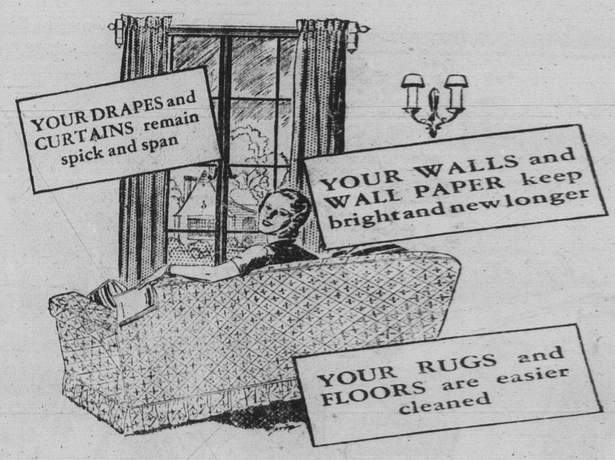
CLEAN HEAT



YOUR DRAPES and CURTAINS remain spick and span
YOUR WALLS and WALL PAPER keep bright and new longer
YOUR RUGS and FLOORS are easier cleaned

GAS HEATING

WHEN Gas Heat comes in, dirt and dust and grime that is ever present with old fashioned fire-tending or smoky fuel goes out—forever. For Gas is delivered clean, burns clean and leaves no residue to be gathered up and hauled away.

What a change too this modern fuel brings throughout the house! Curtains, laundered clean and crisp, stay clean. Wall paper, ceilings, floors and rugs keep looking like new—years longer. There is no grimy dust settling into furniture and upon window ledges. Think of what all this means when both labor and worry of housework are lightened—made so much easier.

Save hours of needless work keeping fires up this winter. Change your basement or storeroom into a playroom or clothes-drying room this winter. Save money too in redecorating costs, renovating costs, rug cleaning bills, by changing to Gas Heating.

Why not make the change to modern, clean heat in your home this month—right now!

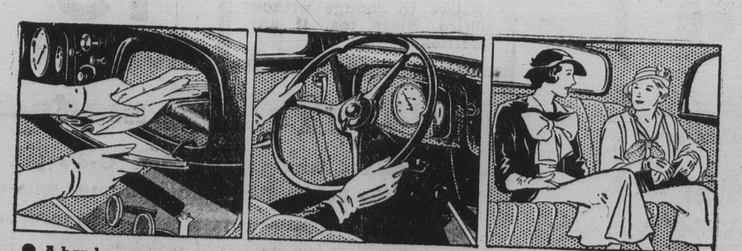
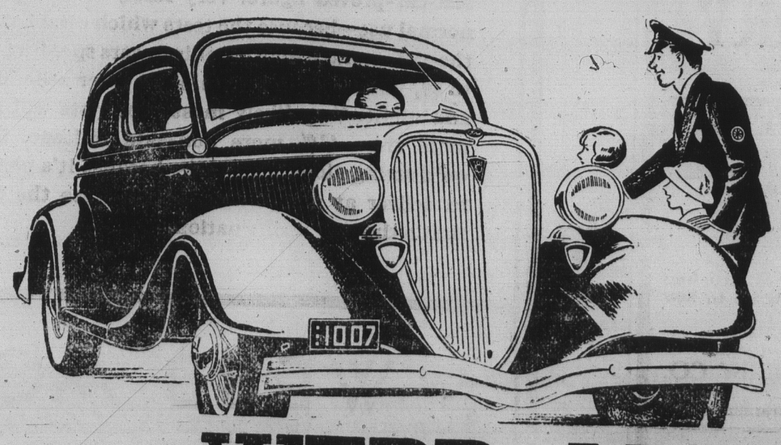
"A Woman must have had a hand in styling the new FORD V-8"



● A handy compartment for gloves and purse. ● A steering ratio that makes parking decidedly easy. ● Plenty of body, head, and leg room in the rear seat.



THE fact is, *many* women did. For this new Ford car was definitely planned to meet the needs of women as well as men.

That's why you'll find a special compartment for your purse in the dashboard and sun-visors for your eyes. That's why interior fittings have been so tastefully designed. Why a finer grade of upholstery has been used. Why brakes act on the slightest touch of your toe. Why the steering ratio is 15-to-1 in order to make this car easier for a woman to handle.

And remember, the Ford V-8 has all the safety features modern engineering skill can devise—a V-8 Engine, Torque-tube Drive, All Steel Body, Welded Steel Spoke Wheels, Safety Glass and many others.

Remember, too, that the Ford V-8 is the most economical car to operate Ford has ever built. Not only that—Ford V-8 *delivered prices* are decidedly low.

Easy terms through Universal Credit Company—the Authorized Ford Finance Plan.

CARTER ENTERS HOME STRETCH FOR REELECTION

Sheriff George Carter today announces in the Nevada City Nugget his candidacy to succeed himself in office at the November election. Carter has made a splendid record, during the two terms he has held office, with more than 800 arrests, ranging from disdeameanors to murder. Of this number 70 arrests have been made this year.

George Carter was born and reared in this county. His only lengthy absence from the county was during the World War when he served with the United States troops abroad and came home with the United States medal for valor under fire.

Prior to his election as sheriff he had served as deputy under Sheriff John R. Martin and had already established a reputation for efficiency and unfaltering courage in the discharge of his duties.

Since his election he has established a splendid reputation among all peace officers of the state, for the certainty with which he hunts down criminals and brings them to the bar of justice. The migration of a large army of unemployed to Nevada County, bringing with them disorderly elements, has placed a heavy burden upon the sheriff's office. This responsibility he has borne without extra cost to the tax payers and, not only that, he has established a 24-hour service at the court house, so that night or day, complaints may receive instant attention.

Among the notable achievements of Sheriff Carter was the arrest of a mad Chinese, who had committed several murders. This Chinese had fled to Nevada County and taken refuge with a relative. Carter took charge personally of this case and climbed a ladder into a dark loft and brought this demented Oriental to safe keeping.

Friends of Sheriff Carter feel that his office have been unusually well administered, and that considering his service to his country and to his county, he should be retained.

Mrs. Clarence Osborne is improving from a recent illness and is able to be up, which is good news to her friends.

Richard Fischer of Nevada City returned recently from a two months vacation spent with relatives in Arcata, Humboldt county.

MINING NEWS

(Continued from Page One)

Nevada City was delivered several days ago. The big mill is at the mine and is to be assembled according to latest reports. This mine will employ a large crew when the installation of machinery is completed.

ALASKA MINE

The main shaft of the Alaska mine north of Nevada City, is being cleaned out by a crew of 22 men. About 17 years ago high grade ore was encountered and a heavy flow of water stopped all operations. The property is owned by the widow of General Schuyler, of Carmel, and a group of stockholders. Jas. Trimbath is superintendent.

HOGE DEVELOPMENT

Eight men have gone into the Hoge mine as leasers and will soon start taking out ore on the 300 foot level. The ore will be milled at the property by the Bullion mine, who has taken a lease on the mill for a term. As soon as the company reorganizes the Hoge company will start active operation.

YOU BET MINING COMPANY

A small crew is employed in getting the You Bet Mining company gravel property in shape for hydraulic operations as soon as sufficient rain has fallen.

GOLD BLOSSOM MINE

The Gold Blossom mine near Grass Valley is being opened by Oakland interests. At present a crew of four are doing exploration work at the property.

BUTLER RANCH

Two San Francisco men have taken over the Butler Ranch below the Stockton Hill mine, south of Grass Valley, and have sunk a 50 foot shaft. They are mining good looking ore but peculiar to that section.

SAN JUAN MINE

The San Juan mine, west of North San Juan, has resumed mining on regular time since the strike ended in the bay region. One hundred and fifty tons per month are being delivered at the N. C. N. G. R. R. depot in Nevada City. A part of the ore being mined at this time is being shipped to Selbys, while the other is still shipped by boat to Tacoma, Washington.

BULLION MINE

The Bullion mine, south of Grass Valley, has leased the Hoge Development company's mill, north of Nevada City for two months to make test runs by the flotation method. Four men will operate the mill besides truckmen hauling the ore from the Bullion property. This ore was being tested and milled at the Idaho-Maryland mines mill but owing to the Idaho-Maryland company not being able to mill all their own ore the Hoge mill was leased. Stoping of ore continues at the Bullion. Hal Lewers will be the mill man at the Hoge mill.

"43% MORE NON-SKID MILEAGE"

"You're too modest!"

Motorists who got the first G-3's put out—months before the public announcement—say, "You're too modest!" Many of them report 50% to 100% more non-skid mileage. Why, then, do we insist on only 43%? Well, 43% is a definite test-car-proved figure. Very likely it is low for normal use—because the tests which established the 43% average were gruelling: cars speeding up to 50, jamming on brakes, mile after mile, day and night. Very likely most motorists will get more than 43% more non-skid mileage. But we'll string along with 43%—because it's plenty to deliver at no extra cost. Come see the tire that's the talk of the nation.

When You "G-3" Your Wheels—
LOOK WHAT YOU GET
No Extra Cost! Flatter, wider All-Weather tread. More Center Traction (16% more non-skid blocks). Heavier Tougher Tread. Supertwist Cord Body and 43% More Miles of Real Non-Skid.

RELIEF LAW UPHELD

(Continued from Page One)

der the section of the constitution in question, the Supreme Court concludes that "the reservation of the reasonable exercise of the protective power of the state is read into all contracts." (P. 272).

The foregoing decision lays down certain criteria established by its decisions, and which must be present before the principal can be applied. These are as follows:

1. An emergency existed in California which furnished a proper occasion for the exercise of the reserve power of the state to protect the interests of the community. As pointed out above, the loss of homes and lands which furnished those in possession the necessary shelter and means of subsistence was sufficient to warrant the court in finding that an emergency existed.

2. The conditions relating to the sale and judgment are not unreasonable. The section in question does not apply to the ordinary mortgage where there is one year allowed by law in which the mortgager can redeem his property from sale. It is directed toward sales under deeds of trust, where the sale is absolute. Trust deeds! it will be remembered, are not created in this state by statute. They came into existence in spite of existing law and contrary thereto, upon the theory that many titles had been derived through them that failure to recognize them would lead to untold confusion. Nevertheless, the harsh manner in which the sales under trust deeds have operated has lead to many attacks upon this manner of security. In 1932 a measure was proposed through an initiative which would include trust deeds within the definition f mortgages. Arguing in favor of the measure, a writer in State Bar Journal, (Vol. VIINo. 6) states that "the passage of the measure will insure a greater degree of financial stability and security among property owners, particularly among the owners of small homes." Unfortunately, and largely through a campaign of misrepresentation, the people failed to give the measure the necessary support.It can be stated with almost absolute certainty that if this measure had passed there would have been no necessity for the enactment of Section 580a.

If the holder of the trust deed is willing to take the real property and forego the right to a deficiency judgment, he is not affected by this legislation. If he insists upon his right to a deficiency, then in such casese the econmic exigency requires some sacrifice on his part for the general good. As a matter of common practice the loss of the creditor is theoretical only, as there is little likelihood that he could ever realize upon the defficiency judgment. At the most, he could only lose a portion of the loan, and if the property is appraised for the amount of the loan he loses nothing. It would therefore seem reasonable, in time of emergency, to give the debtor some measure of protection in having a judicial determination made of the value of the property at the time of the sale. and not leave much value to be fixed by a forced sale which is very often no criterion of the real value of the property.

In conclusion, it would appear that some impairment of the right of contract is justified under such circumstances, where reasonable restrictions are imposed upon the creditor class, in order to check the current economic disaster and its ensuing social demoralization.

The court concludes that this section is applicable to existing deeds of trust, and the motion to appoint an inheritance tax appraiser is granted. Defendant will prepare the appropriate order.

RAGLAN TUTTLE, Judge.

Virgil Giani has just returned from a two week's vacation spent in Sacramento.

LUMBER TALKS

Said the Shingles and Boards: "We are wasting
our time
Just lolling around in the yard.
Come haul us away to that house-mending job—
Let nothing the program retard."
Said the Hammers and Saws and bright, clinking
nails:
"Our clear voices, silent too long,
Are longing to join in the jolly refrain
And swell the Remodeling Song.
—A. M. C.

EVER interview a house? It's great sport; begin with your own. It will tell you just what is needed to turn it from a house into a Home O'Dreams.

Take the house into your confidence, listen to its story; pencil in hand make a list of the things it wants, then come to us and we will show you Shingles, Lumber, Paints, Hardware, and other materials with which to do the necessary repairing. Talk to the house, then to your lumberman.

We are building and boosting. Old houses are perking up, and new ones are getting new ideas. Forward all! Let the hammers sing.

DEATHS ACCIDENTAL CORONER'S JURY FINDS

Russel Feemster was foreman of the coroner's jury in the case of the death of the late George Dewey Nicholson of Nevada City who so tragically met his death in the Chalk Hill fire on Sunday. The verdict of the jury was accidental death. The death of Everett Charles Aslin of Grass Valley was also found to be accidental, due to injuries received in an accident at the New Brunswick mine. The same jury decided Lewis Fred Johnson died by his own hand with suicidal intent.

COMPENSATION RATE HAMPERS CALIF. MINING

The excessive cost of compensation insurance for mines in California is not only working a hardship on many operators, but it is also retarding the development of prospects as investors object to paying a base rate of $11.00 per $100.00 pay roll for underground employees, and in addition a penalty for distance from medical service where the property is in an isolated section of the state. In fact, a number of options on mining properties have been cancelled on account of this condition. The present rate is the highest of any metal mining state, and as it is only $5.00 in Colorado, it can be readily understood why so much discussion has been caused over this matter.

The high rate in California is due to a number of factors such as expense loading, which is allowed in all states where competitive insurance exists, and also to the liberal provisions of the Workmen's Compensation Act. Under the California Act, unlimited medical treatment and high partial and permanent disability ratings are allowed which increases the cost of insurance.

The higher the pure premium, the more the insured must pay for expense loading under a competitive insurance system. This inequitable application of expense loading is the reason the mining industry is being forced to pay three or four dollars a hundred more than the actual cost. For instance, the pure premium for the mining industry which was used to establish rates for the year 1933 was $7.04, and the base rate for underground employees for that year was $11.85. As a result of strenuous objections on the part of those engaged in the mining industry in this state, the base rate for the year 1934 was established at $11.00; a reduction of 85 cents per hundred as compared with the year 1933.

The State Fund under the California Insurance Act, must charge the same rates as private insurance companies, but this excess charge is returned to the insured each year in the form of dividends according to the losses of each risk; its expense loading is 14 per cent. A number of the larger mining companies have reduced the cost of compensation insurance by dividends received from the State Fund.

CAMPTONVILLE

By ACTON M. CLEVELAND

CAMPTONVILLE, Sept. 17.—C. P. McCormack and J. L. O'Sullivan motored to a place on Kanica Creek Saturday, became stuck with the car necessitating getting the tow car to get them out.

Gus Weisbaum, of San Francisco, passed through town Saturday, enroute to Snowden Hill mine which property he is operating.

Mr. and Mrs. Edward Havey and Mrs. Fred B. Hanson, motored to Marysville Saturday on a short business visit.

Erle Pauly motored to Nevada City Sunday to drive the Auburn Nevada City bus for a day.

Dr. Actright and party of San Francisco are the guests of Elmer S. R. Hall at Mill Creek. He is from the new battleship San Francisco.

J. Lund left Saturday for his home in Reno, where he will remain for some time.

C. E. Curtis left Saturday for San Diego on a visit with his family.

Jack Richards, superintendent of the government building left Saturday for his home at Nevada City.

CAMPTONVILLE, Sept. 15.—F. J. Massa arrived a few days ago from a highway camp near Oroville, where he is employed as a foreman and will spend a short vacation at his old home at Oak Valley.

The Board of Trustees, of the Camptonville Union School District, held a meeting Thursday, taking up the matter of improvements to the rammar school building.

Mrs. C. A. Anderson, of Nevada City, was in town Thursday on a short business visit.

W. H. Cartwright, of Grass Valley, passed through Thursday from Sacramento, enroute to Sierra City.

A group of Government Debris Commission surveyors are registered at the Hotel Francis and are doing some surveying in this neighborhood relative to building dams.

J. W. Morehead celebrated his birthday Thursday evening, a number of riends and relatives wishing him a happy birthday.

Lawrence E. Turner and Leonard L. Bishop motored to Nevada City Thursday.

William O. Grant motored to Sacramento Thursday evening on a business visit.

Fred Joubert was a business visitor at Nevada City Wednesday afternoon.

Lee Bullington recently completed a repair job on the Oregon Creek Bridge, on the Camptonville-Pike road.

C. P. Williams left Friday for Los Angeles after a few weeks in this section mining.

Hank Smith, of Grass Valley, was in town Friday on a short business visit.

MONTGOMERY WARD

From Nearby Communities

NORTH SAN JUAN

By MRS. F. M. HARRIS

NORTH SAN JUAN, Sept. 18,—Mr. and Mrs. Shelby Huckins and little son, of Yuba City, spent a week with Mrs. Huckin's mother, Mrs. Ellen Solaro.

Mr. and Mrs. Charles Radke, of Sacramento, with the parents of Mr. Radke, Mr. and Mrs. McCrystal, of Vallejo, were guests of Mr. and Mrs. C. J. Lyser, of the San Juan mine, last Thursday.

Mr. Chas. Weinman and the Misses Weinman, of Sebastopol, were surprised on the 8, by a call from a cousin, Mr. Henry Fitter, a former resident of the Ridge. Mrs. Fitter accompanied her husband as did Mr. and Mrs. Robert Chesney, all of Oakland and enroute to Bowman's Dam for an outing and fishing. Mrs. Chesney was Miss Ruth Fitter until her marriage to Mr. Chesney in June.

Mr. Ed Ingals, of Ukiah, Mendocino county, is the guest of Mr. and Mrs. C. H. Jones, of Sweetland.

The school board has engaged a second teacher for the San Juan school because of the increased number of pupils. Mrs. Terrill, of Grass Valley has charge of the first three grades and holds school in the big front room of Mrs. E. Solaro's home. Both Miss Ramm and Mrs. Terrill board at the hotel.

Miss Elizabeth Ferguson is in Nevada City this week taking care of the home of Mr. and Mrs. R. E. Harris, while they are away on a vacation.

Mr. Gordon Kessler has purchased what is known as the old Sooy place from J. C. Holland. A well has been dug and the house is now being repaired. This will make a very attractive home.

Mr. George Sprangler, of Sacramento, is visiting his friends, Mr. and Mrs. George Green, of Sebastopol.

Mr. and Mrs. Harry Pillow, of Los Angeles, spent a few days with Mr. Pillow's sister and family, Mr. and Mrs. Ray Davenport and Miss Leona. Mr. Pillow hoped to get a deer while here but was here so short a time he was obliged to return without one.

Mr. H. Huckins is erecting a new house on his lot back of the school yard. Mr. Miller and Mr. McQuinn are the carpenters.

Mr. J. J. McCullough passed through town on Thursday enroute to his mine beyond Downieville. Mr. McCullough is living on his place, which is known as the Empire Ranch. He has leased his mine to a company who are putting in a new monitor and hoist, preparatory to hydraulic mining.

The deer season opened in this region on Sunday morning and was ushered in by the booming of guns in various directions. Two local hunters have reported gitting a buck so far. Mr. Percy Clay and party, from Marysville, carried home a deer and one car of hunters passing through town displayed four bucks and another one two.

Invitations have been received here to the wedding of Will McCullough to Miss Mildred Marie Fardig, of Albany, on the 15. A brother Robert McCullough has also applied for a marriage license in Nevada City, to wed Miss Eleanor Biggs, of Grass Valley.

The McCullough boys grew up in San Juan and attended school here. Their many friends wish them happiness in a long married life.

CARL TOBIASSEN IN FINAL LAP OF SHERIFF'S RACE

In this issue of the Nugget, Carl J. Tobiassen, who polled more votes in the primary than either of the other contestants, announces the resumption of his race for sheriff to the November finals.

Carl Tobiassen, was born and raised in Nevada county, educated here, married, and, is now rearing a family of five children.

About every enterprise and activity which has had for its purpose the upbuilding or welfare of his community or county has found Mr. Tobiassen among its energetic and active supporters. The prominent part he has played in promoting the interest of the Boy Scouts, his unselfish devotion exemplified in cutting and peeling logs for the scout lodge, are a type of his public spirited service to whatever organization he has given his allegiance.

He is president of Hydraulic Parlor, Natice Sons of the Golden West, vice president of Oustomah Lodge, I. O. O. F., member of the Neighbors of Woodcraft, Grass Valley Sportsmen's club and other organizations in which he takes an active part in all those plans which are constructive have for their purpose organization or community improvement. For ten years he has been superintendent of the county farm.

Mr. Tobiassen has made a host of friends in all parts of the county and they feel that he is now entitled to a promotion because of his record of devoted public service in many lines of endeavor.

P. T. A. PROGRAM 'S POSTPONED

The P. T. A. of the grammar school has postponed its program prepared for this afternoon, owing to the Elks Card Party at the hme of Mr. and Mrs. John O'Neill. Announcement of the date will appear in Monday's issue.

The members are giving a food sale Saturday, September 22, in front of the Alpha Store.

Miss Beatrice Cassidy To Address Civic Club

The first meeting of the fall season for the Woman's Civic club will take place next Monday evening at the Brand Studio. The feature of the evening's program will be a narative by Miss Beatrice Cassidy, guest speaker, of her recent travel in Mexico, where she spent five months enjoying and observing the customs and arts of the people. While there she attended the summer session of the University of the Mexican Government. Illustrating the address, Miss Cassidy will display specimens of the arts and crafts of the Mexican people and Indian tribes. Members of the club look forward to an unusually pleasant and interesting evening.

STAR POINT NIGHT OF EVANGELINE CHAPTER

Evangeline Chapter, O. E. S., celebrated Star Point Night Tuesday evening with an excellent program, social time and the serving of dainty refreshments.

The program follows: Song, Mrs. Lyda Talbot; playlet, Miss Ruth Tamblyn and Mrs. B. Barron; trumpet solo, L. E. Sweeney, accompanied by Bev. Barron; piano solo, Beverly Barron; playlet, First Tee, Mrs. Howard Penrose and Mrs. Louis Kopp; two songs, Mrs. Catherine Celio, accompanied by Mrs. Ray Hayes. Mrs. Vera Ingram, D. D. G. M., of Grass Valley brought a gracious and interesting greeting to the chapter. Grand Chapter will meet in San Francisco from October 16 to 19. Visitors were present from Dutch Flat, Colfax and Auburn.

Personal

Joe Inbrulia injured the little finger of his right hand and at about the same time suffered infection from an injury on his left hand. On Tuesday he was taken to the hospital where a minor operation was performed. Dr. B. W. Hummelt says Joe is making a good recovery.

Mr. and Mrs. W. A. Kervin returned home Wednesday after a ten day vacation spent in San Francisco.

Sheriff George R. Carter and deputies have kept a constant watch for William Ebaugh, charged as a peace disturber of Willow Valley. They have seen nothing of the man for the last few days and a report was brought to them that he was seen at Rough and Ready Sunday evening at about seven o'clock.

Roy Brown of Nevada City was rested Tuesday by Sheriff George R. Carter for alleged petty theft. It is claimed he found a purse belonging to Alfred Peard which contained $32 and failed to return it.

Mrs. Rose Casseli of Hill Flat swore to a complaint charging Hugh Monehan with assault. It is claimed Monehan struck Mrs. Casseli's husband over the head with a bottle an Saturday night. Sheriff Carter arrested the man and he is held in jail pending his trial in Justice of the Peace W. L. Mobley's court in Nevada City.

Mr. and Mrs. E. Brooks Larned of New York are visiting with Mr. and Mrs. LeRoy Delaney. Mr. Larned is a civil engineer by profession, also has had considerable experience with mining engineering and is interested in the mining business. He and Mr. Delaney are quite old frieds having resided in Europe for quite a number of years, where they both served actively as officers with the American Expeditionary Forces. Mr. Larned is examining different mining properties and may be with us for some time. He says this is the greatest mining district it has even been his pleasure to see.

Frank Clark, mining engineer, who has spent the summer on his mining claims near Downieville, passed through Nevada City Sunday enroute to Oakland having been called there by the death of his sister.

Dick Haddy has moved to Nevada state to reside and enter business in one of the larger cities of that state.

Mrs. Mary E. Langley left Tuesday for Los Angeles with her daughters, Mrs. C. A. English and Mrs. George Zeizsche, in care of Edna DaRoux, local nurse Mrs. Langley who has been seriously ill, felt quite improved at the time of her departure. Mrs. DaRoux will remain a few days as guest of Mrs. English in her home the former Lucky Baldwin estate.

Mr. and Mrs. J. W. Still and sons returned Saturday from a vacation that took them as far north as Portland and Astoria in Oregon. They report a most delightful motor trip.

Robert Paine, local depot agent, was able to assume his duties Tuesday after being ill for a few weeks owing to a severe operation. His many friends are pleased to see him about again.

George Evans, mining engineer from the east, is staying at the National Hotel in Nevada City. He is visiting the Lava Cap mine southeast of Nevada City.

Miss Mamie Meservey returned early Thursday morning from a mnth's vacation spent with T. F. Knowlton and family, relatives of her father, in Portland, Maine. She enjoyed a wonderful trip and reported for duty as assistant postmaster in Nevada City post office this morning.

William Genasci and niece, Miss Florence Genasci, were called to Ellensberg, Wash., on account of the death of Mr. Genasci's sister, Mrs. F. L. Hartman's death. She was a native of Nevada City.

Funeral services were held at the Holmes Funeral Home on Wednesday afternoon for the late George D. Nicholson who met a tragic death in the fire at Chalf Bluff section on Sunday. Rev. H. H. Buckner officiated.

Judge Raglan Tuttle occupied the Sierra County Superior bench Tuesday where he heard a mining case. He sat for Judge Henry B. Neville, critically ill, who passed away yesterday morning.

Ed. Rice, Al Kelliher, Clarence Clint, and Bert Moody and son, hunted in Sierra county last week end. It was the first deer hunt for Messrs. Rice and Clint of Los Angeles and they enjoyed the experience although they did not get a buck. Bert Moody regaled the party with some tall buck stories.

Mrs. F. L. Hartman, the former Miss Florence Genasci of Willow Valley, passed away in Ellensburg, Washington, Sunday, September 16.

Miss Sarah Miller a native of Nevada City passed away in San Francisco, Friday, September 14.

E. A. Clark has a badly fractured wrist reported to have been caused by a fall in the Washington mining district.

Mr. and Mrs. William Maguire, Jr., spent Wednesday in Sacramento attending to business affairs.

Neil Carney has gone to Oakland where he is taking up a course in deisel engines.

Mr. and Mrs. Edd Addington spent Thursday in Auburn and Gold Run on business and pleasure.

BIRTHS

BORN—In Lime Kiln, Nevada county, September 17, 1934, to Mr. and Mrs. H. J. Burr ,a son.

MARRIAGE LICENSES

HANKS-SUTHERLAND—In Reno, Nevada, September 20, 1934, to Augusutus H. Hanks, 22, Nevada City, and Hazel L. Sutherland, 18, Grass Valley.

SIXTH DEER BROUGHT DOWN

The party of hunters who brought in four deer from the Omega mine district Sunday brought in another one on Monday and one Tuesday. After the good luck of Sunday's hunt a group comprised of Carl Tobiassen, Andrew Tobiassen, Joe Perkins, Rev. Charles Washburn, Bud Johnson, Jim Ricard, Jack Townsend, Carl Marsh and Ernie Hotchkiss went back to get more. Andrew Tobiassen shot the two point buck that was brought down Tuesday. The party saw the big mountain lion again that they saw on their first trip.
